FOR IMMEDIATE RELEASE

Liberty Valley Doors Receives Business of the Year Award

The Cotati Chamber of Commerce has announced that Liberty Valley Doors has been selected for the President's Choice Business of the Year Award for 2008. Chamber President, Gerard Giudice made the decision based on Liberty Valley Doors accomplishments, commitment to the environment, and distinguished community service.

Liberty Valley Doors manufactures its doors using a 117 kw solar power system. The solar generating facility consists of a roof mounted array of panels as well as a ground mounted array. They have reduced waste by over 85% and donate all scrap wood to the public and schools. They utilize the work of eco-frindly lawnmowers (in this case goats).

Liberty Valley Doors, established in 1980, is a custom stile and rail door manufacturer specializing in arched, custom designed doors, and FSC Chain of Custody Certified doors. LVD's updated web site contains multiple portfolios, door and pre hang details, standard specifications, company information and is a great starting point for any custom door project. Liberty Valley Doors also offers many different species of sustainably harvested woods.

Liberty Valley Doors is committed to accelerating the transition to sustainable building, energy, and economic practices. We believe sustainability is the ethical choice.
